

# TOMATO

*Solanum lycopersicum*

PLANTING Jul - Nov. PROCESSING Jan - April

## INGREDIENTS

- *Tomato Paste*
- *Tomato Puree*
- *Tomato Powder*

The Cedenco story started with tomato processing in the 1980s and continues to be a core part of our business today.

Harvested during the hottest days of the Gisborne summer our tomatoes have a rich aromatic flavour and high colour.

Whether you call it ketchup or sauce, tomatoes are a common condiment and a rich source of lycopene.
